23 February 1957

MEMORANDUM FOR: 25X1A9a
SUBJECT : Langley Property

1. As you know we are waiting for a letter from the Bureau of Public Roads, Department of Commerce, transferring to us the balance of the property at Langley. If I understand it there will be a space on one of the copies of this letter for the Director to acknowledge receipt of custody of the land. The date and time on which custody is accepted should appear somewhere in any acceptance correspondence.

2. In addition [redacted] Office called me on 21 February to remind me that there is a suspense on, if I recall correctly, a letter to Public Roads telling them it is all right for Virginia to take some of our property for right-of-way for Route 123. In addition, I do not believe this appears in the suspense record, we should probably send GSA a pleasant letter when the transaction is complete. I advised [redacted] that this suspension should be transferred to you.
